

Fluids and Space Engineering Seminar 2020

Wednesdays at 13:00

Online

20. May	Additive core manufacturing of soft magnetic material for future space applications Nils Goossens
3. June	Challenges to simulating Electric Propulsion Systems Christoph Kühn
17. June	Statistical Analysis of thermal conductivity experimentally measured in water-based nano fluids Julia Tielke
1. July	tba Prof. Dr.-Ing. habil. Michael Dreyer
15. July	tba Stefan Gasow
