

### **Safety regulations and guidelines for the top of the drop tower**

Special safety regulations apply due to the unusual location of the venue. All guests must be accompanied by a member of ZARM during their stay at the top of the drop tower. The entire drop tower is non-smoking and the consumption of alcohol at the top of the tower is strictly limited. In the event of fire, all visitors must be able (physically and mentally) to use the stairs to leave the building – elevators will not operate. The visit of the top of the drop tower is at your own risk.
